(RADA exams)

Drama Club

Performances

As a department we work hard to organise exciting performance opportunities across each of the performing arts courses. These could range from full scale productions to smaller ensemble performances, as well as many examined and informal performances throughout the year.

Progression

Many of our students have gone on to study Performing Arts subjects at university, college or conservatoire and we are very proud that many are working in the industry. Our alumni regularly visit us to lead workshops and discussions to support our current students. We have strong links with a range of arts organisations, universities and conservatoires, who we regularly collaborate with to provide our students with industry facing opportunities. The department work together to create a strong sense of unity and co-operation between the arts subjects.
